DETAILED ACTION

This Office action is in response to the applicant's amendment filed on 6/30/2006.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 6/30/2006 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6-13, and 15-16 stand rejected under 35 U.S.C. 102(b) as being anticipated by Charman (US 4,631,881).

Charman shows in Figures 1-7, an office screen and partitions comprising a rigid frame assembly 17, 18, free stand 14, a plurality of top, intermediate, and bottom brackets 40 (see Figures 3 and 5) mounting on the rigid frames 17, 18, a pair of top 19,

intermediate 20, bottom 21 facing panels assembly having mounting means on the edges of the facing panels (see Figure 7), an unobstructed cavity is defined between the inward facing back surface of the panels and the outward facing exterior surfaces of the extension posts 15, 16, which upper spaces generally are defined along the vertical length of each respective extension posts 15, 16. The unobstructed cavity, therefore, permit passage 80 of the cabling as well as the horizontal rails 24, 25, horizontally across the extension post 15, 16, and along the entire length of the wall panel system, and a crown member 95 on the top of the panel assembly.

Allowable Subject Matter

Claims 17 and 18 were previously allowed.

Response to Arguments

Since the applicant's remarks filed on 6/30/2006 provided no argument, therefore there is no examiner's response needed. Further, the applicant did not amend claims thus the rejections are reinstated and deems to make it final.

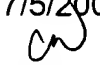

Conclusion

This is a RCE of applicant's earlier Application No. 09/636,359. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
